Report of The Minister of Education 1964

To The Honourable W. Earle Rowe, P.C.(C)
Lieutenant-Governor of the Province of Ontario

Your Honour:

With all respect, I present the Report of the Department of Education for the year 1964, reviewing, in summary, the work of the divisions and branches which are responsible for the organization and supervision of the educational system. This account of progress is supported by the appropriate general and comparative statistics. In presenting it, I wish to make reference to certain significant innovations which have been introduced during the past twelve months to strengthen the programme of the Department.

In September, 1964, a total of 1,673,774 pupils enrolled in the elementary and secondary schools of the provincial system. This number exceeded last year's figure by 76,400, an increase made up of 45,309 in the elementary schools and 31,091 in the secondary schools.

In the elementary schools, the demand for teachers was approximately matched by the supply, except for some shortage in the separate schools where the increase in pupil enrolment is particularly marked. Enrolment at the Teachers' Colleges preparing elementary-school teachers reached 6,462. A specially appointed committee has begun a study of the training of elementary-school teachers. Its task will be to recommend whatever immediate changes may appear necessary and to submit an improved programme which could be implemented in steps over a period of years.

Construction of school buildings has shown the influence of two parallel trends. On the one hand, rising public expectations have called for larger and more completely equipped elementary schools. The development of central graded schools in rural areas is an evidence of this trend, and in this field the rate of building will doubtless accelerate rather than drop. In the secondary-school sphere, on the other hand, the demand for more technical-vocational accommodation is the outstanding characteristic. Ten new buildings and 36 additions to existing schools completed during the year provided 17,400 places for pupils seeking vocational or arts and science programmes. As the peak in the provision of technical-vocational facilities recedes, the volume of secondary-school construction should resume a more normal pattern.

In the past twenty years, school construction has required a capital expenditure of more than one billion dollars. The scope of this past, as well as prospective, investment, coupled with the need to assess advances in materials, methods and teaching techniques in relation to cost, brought about the establishment in the Department during the past summer of a new Division of School Planning and Building Research with wide terms of reference.

Legislation was passed during the year under review to place the administration of rural public schools on a township unit basis. From the beginning of 1965, rural public schools in the organized townships of the Province will be operated by township school boards rather than by three-man boards for each school. This pattern of school organization had already been voluntarily adopted

by more than half of such townships prior to 1964. Provision has also been made for the appointment of county consultative committees which will study the feasibility of combining township areas into larger units, and will present recommendations to the county councils for their consideration and possible action in this regard.

Further extension of the Reorganized Programme of Studies for Secondary Schools during the autumn made its three-branch curriculum available in four-year and five-year streams in each of Grades 9, 10 and 11. A generous diversification of courses, some of them with a strongly contemporary flavour, has already had its effect in lifting the retention rate in the schools. It has also intensified the demand for teachers of vocational subjects.

How much the teaching of French as a second language for English-speaking pupils has grown in importance was indicated during the year by the appointment of a Director of French Instruction to co-ordinate, and give leadership, in this subject in elementary schools throughout the Province. By late autumn, French was being offered to English-speaking pupils in schools controlled by 184 public and separate school boards. The courses affected an enrolment of 138,984 in regular classroom grades, an increase of nearly 35,000 over the previous year's figure; an additional 1,763 such pupils were receiving French instruction in special classes.

At the end of December, 1964, the Technological and Trades Training Branch had been in existence less than two years. In that short period and especially in the past twelve months, the rapid growth of its activities has demonstrated that the operation of the Federal-Provincial Technical and Vocational Training Agreement has been and is meeting pronounced needs in the educational scheme of the Province. The scope of the Branch spans technology, industry, business management and retraining—and the last of these is one of the key labour problems of this century. Enrolment beyond existing capacity was reported in 1964 from more than one of the Institutes of Technology. The Ontario Vocational Centre in London was officially opened and the Eastern Ontario Institute of Technology in Ottawa moved into a new building last autumn. At the same time, Ottawa's Ontario Vocational Centre also admitted its first students. During the year, Ryerson Institute of Technology became the Ryerson Polytechnical Institute, administered—like the Lakehead College of Arts, Science and Technology—by its own Board of Governors. Planning proceeded for a new Hamilton Technical Centre which will provide a new building for the Institute of Technology and a new Ontario Vocational Centre on the same campus.

In the autumn of 1964, the five Institutes of Technology enrolled 2,017 full-time and 1,665 evening students. At the five Vocational Centres, total enrolment stood at 2,459 full-time and 2,383 evening students. Ryerson, in its new status, registered 3,304 full-time students and a further 6,500 in evening courses.

Overshadowed, perhaps, by the main events of the year, but no less important, were four other moves: the appointment of an Implementation Committee to press on with further studies along lines suggested in the Grade 13 Report; a new plan, effective in 1965, to underwrite the operating costs of schools for retarded children wholly from public funds; the allocation of grants by the Province to aid school boards in providing text-books for students in Grades 9 and 10; the appointment of a Director of Elementary School Library Services to give leadership in that field.

Financing of the numerous educational plans and projects across the Province was materially assisted by the implementation of the new Foundation Tax Plan. Under the terms of the Plan, \$285,400,000 was provided in the Estimates for distribution to school boards in legislative grants. It was the biggest outlay in such grants ever made in the history of Ontario.

Formidable problems in communication between the Department and all those interested in education have been fostered by a variety of factors: the unprecedented expansion in the numbers of students, teachers and schools; the exploding growth of knowledge; the social implications of technological advances; the increasing complexity, perhaps, of life itself. The new Information Branch, set up with its own Director in the summer, is designed to provide a channel for a developing two-way interchange of information on educational activities, policies and plans between the Department on the one side, and, on the other, the public, trustees, professional publications and the news media.

Education, today, must be a flexible process, operating as it does under a multitude of changing influences, many of them novel, some revolutionary. Upon the results of that process, more and more, depends the economic and social health of a people. There is now widespread recognition in the modern world of the vital importance of informed educational planning. To assure continued attention to such planning and to provide time and facilities to personnel for this purpose, a Policy and Development Council was instituted during the year under review. The duties of the Council will be to conduct a continuing examination of Department policy, to initiate studies where required, and to report its findings and recommendations to the Minister. In the long perspective of history, the establishment of this Council may prove to be one of the most significant events of the educational year.

Respectfully submitted,

A handwritten signature in dark ink, reading "William G. Davis". The signature is written in a cursive style with a large, prominent "W" and "D".

Toronto, December 31, 1964.

Minister of Education

Elementary Education

ENROLMENT

During the past year, the enrolment of Ontario elementary schools increased by 45,309 to a total of 1,278,473 pupils. Of these, 925,068 were enrolled in public schools and 353,405 were enrolled in Roman Catholic separate schools in September, 1964.

SUPERVISION OF ELEMENTARY SCHOOLS

The elementary schools of Ontario are under the supervision of 365 school inspectors. There are 214 provincial inspectors located in 102 centres throughout the Province, and 151 municipal inspectors employed by 44 local school boards under the provisions of Section 81 of The Schools Administration Act.

With the increase in the enrolment of the elementary schools, the total number of inspectors has increased by 20 during this past year. Nine of these additional inspectors are employed by local boards. Of the 214 provincially-appointed inspectors, 129 serve the public schools and 85 serve the Roman Catholic separate schools.

In October, the tenth in-service programme for newly-appointed inspectors was conducted by the Department of Education and was attended by 25 provincial and 9 municipal inspectors. In addition to providing opportunities to meet the officials of the Department and to become acquainted with the administration of the Department, the one-week programme this year included lectures on the new approach in mathematics.

Earlier in the year, all elementary school inspectors in the Province attended a two-day seminar concerned with changes in the mathematics programme, organized by the Elementary Education Branch and conducted by officials of the Curriculum, Professional Development and Teacher Education Branches of the Department at four teachers' colleges.

The assistant superintendents in the Elementary Education Branch of the Department maintain constant liaison with the inspectors throughout the Province, and, as time permits, visit with inspectors in their respective inspectorates. The improvement in the qualifications of many elementary school principals and the release of these principals from some classroom duties have resulted in an increased amount of supervision at the local level.

The joint supervision by principals and inspectors, and by officials of the Elementary Education Branch, assists materially in maintaining standards in the elementary school classrooms throughout Ontario.

THE TEACHING OF FRENCH TO ENGLISH-SPEAKING PUPILS

At the end of November, 1964, French was being taught as a second language to English-speaking pupils in schools operated by 184 public and separate school boards. In almost one-third of these boards, French is introduced at the Grade 5 level, with Grades 3, 4 and 7 also frequently noted as levels for introducing the language.

There were 138,984 pupils in the elementary schools receiving this instruction in regular classroom grades and 1,763 pupils in special classes. Special or itinerant teachers employed by boards to teach this subject numbered 269. In addition, 792 regular classroom teachers carried on the teaching of this special subject. It is clear that the scope of the programme for the teaching of French as a second language to English-speaking pupils is broadening. Effective July 1, 1964, a

Director of French for English-speaking Classes was appointed to co-ordinate this subject in the elementary schools.

In the autumn of 1963, a representative Departmental French Committee was appointed to investigate and report on the teaching of French from Kindergarten to Grade 13. The recommendations of this committee will receive very close consideration with respect to courses of study, teacher supply and certification. Meanwhile, the supply of teachers for the elementary-school programme is increasing. Seventy-five teachers successfully completed the second summer course for this subject in 1964, and a pilot project, inaugurated as part of the winter course at the Ottawa Teachers' College attracted some 40 candidates.

ELEMENTARY SCHOOL LIBRARY SERVICES

The importance of a comprehensive school library service in the elementary schools has been additionally recognized by the Department during the year under review through the appointment of a Director in this field, through extended grants for books and through a continuation of the policy of making available grants on expenditures for libraries in schools of twelve or more classrooms.

During the summer of 1964, the third course for elementary school teacher-librarians was successfully organized and carried out under the guidance of the Director, with 130 teachers enrolled. Boards are taking increasing advantage of the legislative grant available to the board of any elementary school of twelve or more classrooms which provides a central library of at least classroom size. During the past year, approximately 54 central libraries have been added to elementary schools in Ontario. The \$1.00 per pupil grant for library books has been extended to all boards.

TRANSPORTATION

The steady increase in transportation services which has been maintained for a number of years continued in 1963-64. During the school year, elementary school boards provided transportation for 154,578 pupils, an increase of 18 per cent over the figure for the previous year. Included in this number were 8,685 secondary school pupils residing outside any high school district.

Fifteen per cent of the pupils transported by elementary school boards had homes within 2 miles of the school which they attended; 42 per cent lived from two to four miles from school; 21 per cent from four to six miles; 13 per cent from six to nine miles; 4 per cent from nine to twelve miles; and 5 per cent of those transported travelled a distance of twelve miles or more to school. Vehicles owned by school boards were used to carry 27,868 pupils, representing 18 per cent of all pupils transported by elementary school boards.

BUILDING PROGRAMME

Elementary school accommodation was increased by 77,385 pupil places in 457 new buildings and additions at an approximate cost of \$71,145,000.

From 1945 to 1964 inclusive, 948,550 pupil places have been provided at an estimated cost of \$695,002,000.

TRUSTEE ORGANIZATIONS IN ONTARIO

A summary was prepared in 1964 of the number of school boards which were members of the affiliated organizations of the Ontario School Trustees' Council in the previous year; the results are tabulated below. Each organization listed appoints two representatives to the Council.

1963

Organization	Secondary	Public	Separate	Total
The Associated Secondary School Boards of the Province of Ontario.....	92	nil	nil	92
L'Association des Commissions des Écoles bilingues d'Ontario.....	nil	21	300	321
The Ontario School Trustees' and Ratepayers' Association.....	90	615	3	708
Ontario Separate School Trustees' Association.....	nil	nil	303	303
The Public School Trustees' Association of Ontario.....	18	476	nil	494
Ontario Urban and Rural School Trustees' Association.....	83	72	7	162
Northern Ontario Public and Secondary School Trustees' Association.....	33	53	nil	86
TOTALS	316	1,237	613	2,166

LARGER UNITS OF ADMINISTRATION — BILL 54 — 1964

The passage in 1964 of Bill 54 by the Provincial Legislature was a milestone in the development of elementary education in rural Ontario. As a result, effective January 1, 1965, the township became the general unit for the administration of rural public schools. In the counties, the number of rural school boards was reduced from 1,850 to 423 and in the districts the total fell from 233 to 166. The Bill provided for the inclusion in the township school areas of rural union school sections and of urban municipalities with populations of under 1,000 or with fewer than a hundred pupils of average daily attendance in the public schools.

Legislative provision has also been made for the formation, on a permissive basis, of county school areas in the southern part of the Province and of district school areas in the north. These are areas larger than those presently required under Bill 54 and may be set up on the recommendation of consultative committees. The appropriate by-laws will be enacted in Southern Ontario by the county councils and in Northern Ontario by municipal councils, with the subsequent approval of the Minister.

The small rural school section has served Ontario well, but the superiority of township school areas has become evident from experience gained since World War II. Chief among the numerous advantages of larger units is that they provide for more broadly based financial support through wider assessment, all of which is available to assist in the education of every public school child in the area. Although the 1964 legislation does not refer to centralization of accommodation, there is every reason to believe that, with greater availability of local financial support on a broader basis and with continued provincial legislative grants on a generous scale, the trend towards rural central schools will be accelerated under the township school area boards established by the new legislation.

Secondary Education

ENROLMENT

The total enrolment of pupils in secondary schools in September, 1964, was 395,301, an increase of 31,091 over the total in September, 1963. The enrolments by branches or courses were as follows:

Arts and Science.....	234,487
Business and Commerce.....	79,330
Science, Technology and Trades.....	60,645
Occupational Programme.....	12,474
Special Academic Courses.....	1,315
Special Vocational Courses.....	6,187
Ryerson 1st-yr. Technical Courses.....	345
Ryerson 1st-yr. Business Courses.....	134
Others.....	384

The total number of full-time teachers (including principals) in September, 1964, was 19,205, an increase of 2,035 over the number in the preceding year.

TRANSPORTATION

During the school year 1963-64, secondary school boards provided transportation for 93,028 pupils. This represents an increase of 11.9 per cent over 1962-63. These pupils were transported over 2,276 routes at a cost of \$48,020 per day.

Provision has been made for a secondary school which does not provide vocational education to transport those of its resident pupils who elect to take vocational courses to a secondary school offering vocational training in another high school district.

THE TECHNICAL AND VOCATIONAL TRAINING AGREEMENT

The demand for vocational facilities provided under the Federal-Provincial Technical and Vocational Training Agreement continued at an undiminished rate throughout the year. From June, 1961 to December 15, 1964, 308 different building projects, providing 150,035 pupil places, had been or were being processed. These projects included both new vocational schools and vocational additions to existing secondary schools. There are now 147 boards involved in vocational building projects under the Agreement, of which 107 had not previously offered a technical or occupational programme.

SECONDARY SCHOOL BUILDING PROGRAMME

Ten new secondary school buildings and thirty-six additions to existing secondary schools were completed during 1964. These provided 17,430 places for pupils enrolled in both vocational courses and the arts and science programmes. The cost of these new buildings was approximately \$40,023,000.

REORGANIZED PROGRAMMES OF STUDY

The reorganized programmes of study for secondary schools which were introduced in Grade 9 in September, 1962, reached the Grade 11 level in September, 1964. Evidence indicates that students and parents have welcomed the diversity of opportunities and programmes and that many students are remaining in school because they have found courses there suited to their needs, interests and abilities.

The Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario has continued to stimulate the building of vocational schools and vocational additions to schools. Through the financial aid furnished by the plan, a number of municipalities have been enabled to provide a variety of educational opportunities for their young people which would otherwise have been denied them. The majority of secondary schools in the Province now have at least two programmes of study in operation or are within reasonable transportation distance of large secondary schools which are able to provide all or most of the available programmes.

New optional courses have been prepared and are being offered for the first time in Grade 11 Four-year Programmes in a few schools. They include: Geology; Biology; World Politics; Man in Society; Modern Literature; Theatre Arts; and Speech Arts.

PROVINCIAL STUDENT-AID PROGRAMME

In the fiscal year 1963-64, financial assistance to the amount of \$4,865,182.50 in scholarships, bursaries and loans was provided for 13,642 students. This student total represents an increase of 2,472 over the number who were assisted in the previous year. The Federal Government contributed \$100,000 to aid university students, \$30,637.50 for Institute of Technology students and \$9,272.50 for vocational teachers-in-training. A number of students received both a bursary and a loan.

Of the amount indicated above, the sum of \$1,948,991.50 in free gifts was awarded in the form of scholarships and bursaries. Loans amounting to \$2,916,191 were granted to 6,606 students. Such loans are repayable on reasonable terms which go into effect a year after a student's graduation or withdrawal from the course taken.

The award introduced in 1962 of the King George VI and Queen Elizabeth Scholarship to the highest-ranking Ontario scholar has been continued since that date. This award amounts to \$500 for each year of the winner's university course (up to a maximum of four years), provided he maintains satisfactory standing.

The Legislature provided the sum of \$2,400,000 for scholarships and bursaries in the year under review.

DEPARTMENTAL TESTING PROGRAMME IN GRADES 11 AND 12

During the summer of 1964, the directors, superintendents, principals and teachers, through their respective professional organizations, were asked for suggestions regarding the form of future Departmental tests in Grades 11 and 12. Except for some difference in detail, all groups approved continuing the policy of checking standards in schools across the Province through the judicious use of uniform objective tests and examinations set by committees of teachers and inspectors. As a result, an aptitude test, verbal and mathematical, was set for all Grade 12 pupils in November, 1964, and objective achievement tests in Chemistry and either French or Français will be given in May, 1965, in the General Course. External examinations in June will be written by History pupils of Grade 12 in the General Course and by Technical Course pupils of Grade 12 in Shopwork subjects.

In 1963-64 an objective-type test in Algebra and external Departmental examinations in Latin and Geography, Part II, were written by pupils of Grade 12 of the General Course and an external examination in Technical (Shop) Subjects was completed by pupils in Grade 12 taking these vocational subjects.

Teacher Education

ENROLMENT

A total of 6,462 students enrolled at the Teachers' Colleges in the autumn of 1964. Of these, 3,868 enrolled in One-year Courses leading to Elementary-school Teacher's Certificates, 1,076 in the First Year of the Two-year Course, 1,186 in the Second Year of the Two-year Course, 294 in the One-year Second Class Course at the Sudbury and University of Ottawa Teachers' Colleges, and 38 in the Primary School Specialist Certificate Course.

In September, 1964, enrolment at the Ontario College of Education in courses leading to the High School Assistant's and Vocational Certificates totalled 816. In addition, a total of 103 students enrolled in the Library Course.

Letters of Standing, granted to elementary-school teachers trained in other provinces of Canada or in other countries of the Commonwealth, totalled 586 in the school year 1963-64, an increase of 179 over the previous year. Letters of Permission, issued to elementary-school boards of trustees on behalf of uncertificated teachers, numbered 1,064 by November 30 for the school year 1964-65. Of these, 378 Letters of Permission were issued on behalf of teachers who held basic certificates but lacked qualification for their special work.

TEACHER SUPPLY ELEMENTARY

In June, 1964, approximately 4,500 candidates graduated from the Ontario Teachers' Colleges, an increase of approximately 500 over the previous year. Of these, 3,670 were in One-year Elementary-school Teacher's Courses, and 842 in the Second Year of the Two-year Course. During the year under review, the supply of teachers for the public schools appeared adequate, but a scarcity of staff continued in the separate schools where expansion of enrolment continues to be more rapid.

Increased enrolment is forecast for Grade 13 classes over the next few years. With the expectation that enrolment in the One-year Course at the Teachers' Colleges will increase in proportion, a decision was reached in September, 1964, to discontinue the Two-year Course at the Teachers' Colleges. A decision was also reached in 1964 to demand an average of at least 60 per cent in the subjects necessary for the Secondary School Graduation Diploma as the academic entrance requirement for the Two-year Course. Despite the higher academic qualifications thus required for admission, 1,076 students—the last group to enter the teaching profession by this route—were admitted to the Course in September, 1964.

As previously mentioned, a pilot course in the teaching of French to English-speaking pupils in the elementary schools was initiated in September, 1964, at the Ottawa Teachers' College. Some 40 students, whose French speech was graded as excellent or very good by members of the staff of the bilingual University of Ottawa Teachers' College, began taking weekly instruction in this special field after regular college hours and on Saturday mornings. The supply of graduates from this course, who must also graduate from the regular Teachers' College course, will increase the number of teachers qualified to teach French to English-speaking pupils in the elementary schools.

TEACHER SUPPLY SECONDARY

The supply of teachers for the secondary schools continued to be maintained through the operation of regular courses at the Ontario College of Education and through special summer courses. A total of 1,952 student-teachers enrolled at centres at Kingston, London and Toronto for the Initial Eight-week Summer Course, an increase of 140 over the previous year. A total of 566 persons enrolled at the Ontario College of Education in September, 1964, in courses leading to the High School Assistant's Certificates, Type A and Type B.

The reorganized programme of studies in the secondary school has resulted in increased retention of students and an increasing demand for vocational teachers. Technical, commercial and occupational teachers numbered 460 at the First Summer Course and 250 at the winter session, a decrease of 66 from the combined totals of the previous year.

A total of 331 teachers holding certificates valid in the elementary schools obtained qualification as teachers in the secondary schools by attending the Regular Eight-week Summer Course. In addition, 35 teachers enrolled in a summer

course in Physical Education for female elementary-school teachers who undertake to work towards a university degree through summer school and extramural study. A similar course in the summer of 1963 attracted 39 teachers.

In all courses, the number of secondary-school teachers taking initial courses of training in 1964-65 was 3,594, an increase of 193 over the total for the previous year. During the summer of 1964, the Ontario College of Education supervised—in first courses, completing courses, intermediate courses and specialist courses—a total of 7,222 teachers, an increase of 1,195 over the 1963 total.

Letters of Permission, issued to secondary-school boards of trustees on behalf of secondary-school teachers not holding basic certificates, totalled 1,290 as of November 30, 1964.

NEW CONSTRUCTION

Negotiations progressed with the authorities of the Laurentian University of Sudbury concerning the erection of a building for the Sudbury Teachers' College on the university campus. In addition, plans were completed for the organization of a new Teachers' College to begin operation in September, 1965, in quarters rented from Brock University at St. Catharines. A building for this institution will be erected on the campus of Brock University in the near future. An Ontario College of Education for the training of secondary-school teachers will begin operation in its new building at the University of Western Ontario in 1965, and a similar institution will be established at Queen's University at Kingston.

MINISTER'S COMMITTEE

A study committee on the training of elementary-school teachers began regular meetings in September, 1964. The committee includes representatives of school trustees, universities, school superintendents, directors of education, inspectors, teachers' colleges, the elementary and secondary branches of the Department of Education and each of the five affiliates of the Ontario Teachers' Federation. Committee members visited the Ontario Teachers' Colleges in 1964 and will visit other teacher-training institutions in Canada and elsewhere in 1965. The Committee heard first-hand reports of teacher-training in the British Isles and Australia and studied briefs submitted by persons and organizations interested in the training of elementary-school teachers. It is expected that the work of this Committee, to be continued in 1965, will result in recommendations leading to new plans for the training of future elementary-school teachers in Ontario.

The Registrar's Branch

GRADE 13 DEPARTMENTAL EXAMINATIONS

The Grade 13 examinations of 1964 began on Monday, June 8, a date one week later than in the previous year. In 1963, an early beginning on June 3 enabled the Department to have the papers marked and the results released to the schools on August 1, about ten days earlier than usual. The early start, however, was found to require the presence of a larger number of teachers in Toronto as markers during the month of June than was thought to be in the best interests of their schools. This problem as well as other disadvantages of the plan led the Department to revert in 1964 to the customary starting date at the beginning of the second week in June. In spite of this fact, full reliance for the first time on electronic data-processing of all clerical procedures, in conjunction with improved marking techniques, enabled the Department to cope with some 25,000 extra answer papers in reasonable time. In consequence, the results were sent out to the schools on August 11, which had been the normal release date prior to 1963. On August 11, as well, the Ontario universities and other registering bodies were

provided with sets of the complete examination results for all Grade 13 candidates. This information made it possible for the universities to act immediately on students' applications for admission. In former years, the universities had had to wait for candidates to send in their certificates of standing after these had been received from school principals. In 1964, many applicants for university admission received notices of acceptance a day or two after the Department had turned over the mark lists to the universities.

The Grade 13 Departmental examinations of 1965 will implement several of the proposals of The Grade 13 Study Committee, 1964, including the recommendation that 25% of the final Departmental standing in each subject be determined from the marks assigned to the candidates by their principals and teachers during the school year.

TEACHER CERTIFICATION

The introduction of the programme of exchange and upgrading for teachers' certificates produced a heavy volume of work involving evaluation of all types of such certificates and university courses. In 1963, a total of 5,474 teachers exchanged their certificates for the new type or for a higher certificate. In 1964, the number of exchanges rose to 8,672. A sharp increase in summer course applications also occurred. In 1960, there were 5,868 applications for summer courses; in 1963, the figure stood at 9,970. Applications received for admission to Teachers' Colleges also increased in number. In 1963, 7,871 applications were processed, and in 1964, 8,800 received attention.

THE O.E.A. ELEMENTARY TEACHERS' LOAN FUND

The O.E.A. Elementary Teachers' Loan Fund was established some years ago by the Urban Teachers' Section of the Public School Department of the Ontario Educational Association. Loans are available to graduates of Ontario secondary schools who wish to enter any one of ten of the twelve Teachers' Colleges. The Fund, which is on deposit with the Provincial Treasurer, is administered by the Registrar's Branch under the direction of a committee.

SCHOLARSHIPS FOR STUDY OUTSIDE ONTARIO

For the school year 1963-64, from the \$8,000 provided by the Province for scholarships for study outside Ontario, awards were made to: Miss Marion E. Cornwall, Assistant Supervisor of Elementary Schools, London, to study at the University of Boston; Mr. John F. Futhey, Fort Frances High School, to study at the National University of Wales; Mr. William M. Simons, David and Mary Thomson Collegiate Institute, Scarborough, to study at the University of London, England; and Mr. E. G. Tomkinson, Etobicoke Board of Education, to study at the University of London, England.

TEACHER EXCHANGE

During the school year 1963-64, a total of twenty-five Ontario teachers were on exchange—twenty-one in the United Kingdom, one in another Canadian province and three in the United States.

TRANSPORTATION ASSISTANCE

The transportation subsidies provided by the Department of Education for persons who reside in the territorial districts and who are enrolled in an eligible institution of university rank have been in operation for seventeen years. In the year 1963-64, the sum of \$23,677.65 was paid to 937 students, of whom 629 resided east of Sault Ste. Marie and 308 resided west of that city. Of those students receiving assistance, 337 were in the first year, 274 in the second, 220 in the third, 98 in the fourth, 4 in the fifth and 4 in the sixth.

Technological and Trades Training

INSTITUTES OF TECHNOLOGY

Five Institutes of Technology are administered by the Technological and Trades Training Branch with assistance from local Advisory Committees appointed by the Minister of Education: the Provincial Institute of Mining, Haileybury; the Hamilton Institute of Technology, Hamilton; the Eastern Ontario Institute of Technology, Ottawa; the Northern Ontario Institute of Technology, Kirkland Lake; and the Western Ontario Institute of Technology, Windsor. These Institutes offer to secondary-school graduates technological and business courses in those vocations requiring three years of post-secondary study. The Institutes of Technology also provide advanced evening courses to assist employed persons in upgrading their educational status. On September 30, 1964, the full-time enrolment in the five Institutes was 2,017 students; a further 1,665 students were registered in evening courses on November 1 of the same year.

After seven years in temporary quarters, the Eastern Ontario Institute of Technology commenced the 1964-65 school year in a new building which was officially opened on October 7, 1964. The increased autumn enrolment almost taxed the full capacity of the new facilities. As the Northern Ontario Institute of Technology began its third year of operation in 1964 with a 100% increase in enrolment, it became necessary to obtain temporary additional classroom space. Plans were begun for permanent quarters for the Northern Ontario Institute of Technology. Increased enrolment at the Western Ontario Institute of Technology also necessitated the rental of additional classroom space for the autumn term.

Much of the increase in enrolments just mentioned was due to the availability of the three-year post-secondary course in Business Administration. The Hamilton Institute of Technology, the Northern Ontario Institute of Technology and the Western Ontario Institute of Technology added this course to their programmes in September, 1964. The Eastern Ontario Institute of Technology has been offering the course for several years.

The Provincial Institute of Mining enrolled its first class of three-year students in September, 1964. The additional year will permit the study of mining technology subjects in greater depth. The Provincial Institute of Mining also enrolled nine students from Tanganyika who were sponsored by the Canadian External Aid Office.

RYERSON POLYTECHNICAL INSTITUTE

On July 1, 1964, the Ryerson Institute of Technology in Toronto became the Ryerson Polytechnical Institute, administered by a Board of Governors and operated on funds provided by the Department of Education. Ryerson offers three-year post-secondary courses in Technological, Business Administration, and Applied Arts Divisions. On September 30, 1964, Ryerson Polytechnical Institute had a full-time enrolment of 3,304 students, with a further 6,500 students registered in evening courses as of November 1, 1964.

ADVANCED TECHNICAL EVENING CLASSES

During 1964, the Advanced Technical Evening Class programme was completely reorganized to provide more adequately for the needs of employed technicians seeking to improve their technical education qualifications. The Department of Education and the Certification Board of the Association of Professional Engineers of Ontario co-operated in revising the courses of study so that holders of A.T.E.C. certificates might receive proper educational credit when applying for certification as Engineering Technicians. In the autumn of 1964,

Advanced Technical Evening Classes were available to secondary school graduates through four Institutes of Technology and twenty-one secondary schools throughout the Province.

ONTARIO VOCATIONAL CENTRES

The Ontario Vocational Centre, London, was officially opened on November 20, 1964, by the Premier of Ontario. Both the Ontario Vocational Centre, London, and the Ontario Vocational Centre, Ottawa, enrolled students for the first time in September, 1964. The enrolment in both Centres exceeded initial expectations. Construction of the Ontario Vocational Centre, Sault Ste. Marie, proceeded on schedule; the Centre is expected to be opened to students in September, 1965.

The name "Ontario Vocational Centre" was selected for these new technical institutes to provide a better indication of the scope of the vocational courses they offer. Along with the Provincial Institute of Trades, the Provincial Institute of Automotive and Allied Trades, and the Provincial Institute of Trades and Occupations, all located in Toronto, the new Ontario Vocational Centres offer courses in four main divisions: technical courses for apprentices in the certified trades, as designated by the Department of Labour of Ontario; pre-employment courses in non-certified trades and trades approved for vocational training under the Dominion-Provincial Technical and Vocational Training Agreement; two-year engineering-technical courses for secondary-school graduates; and post-secondary business and commercial courses. On September 30, there were 2,459 full-time students in the five Vocational Centres, with a further 2,383 students registered in evening courses in November.

Plans are well under way for a new Technical Centre in Hamilton which will represent a new approach to post-secondary technical institutes in Ontario. A new Ontario Vocational Centre and new quarters for the Hamilton Institute of Technology will be constructed on the one campus in order that the two institutes may share library, cafeteria, gymnasium and auditorium facilities.

RETRAINING THE UNEMPLOYED

Under Programme 5 of the Technical and Vocational Training Agreement with the Government of Canada, the Technological and Trades Training Branch administers the retraining of unemployed persons in Ontario. During 1964, this retraining was conducted in thirty-eight centres throughout the Province under the supervision of local committees. On September 30, 1964, there were 6,227 trainees enrolled in 38 different courses.

Under Programme 4 of the same agreement, a successful experiment in upgrading the level of education of workers while still employed was conducted as the Leaside Education Assistance Project. A group of factory workers in three Leaside industries were given time off to attend classes in high-school English, Mathematics and Science.

During 1964, continuing adult education became increasingly recognized as an important part of the total educational system of Ontario. Announcement was made that a new permanent Centre for Adult Education would be built in the Toronto area, to be administered by the Toronto Board of Education and financed by the Department of Education. In addition to replacing temporary adult education centres on Jones Avenue and Keele Street, the new Adult Education Centre will provide guidance services and adult education research facilities for the Province.

Curriculum and Text-Books

CURRICULUM

During the year 1964, some 19 curriculum committees were engaged in the development of curriculum materials and course outlines for use in the schools.

Over 225 teachers, inspectors, teachers'-college staff members and representatives of the professions and industry worked with the staff of the Curriculum Branch to complete course outlines in Home Economics, Mathematics (Grades 8 and 12), Chemistry, Spanish (Grades 10 through 13) and in several of the four-year options such as Biology, Geology, World Politics, and Man in Society.

Committee work continued on many other courses: Music (Grades 7 through 12), Health (Grades 7 through 12), Marketing, Data-processing, Registered (Certified) Nursing Assistants, Dietary Supervisors, and Mathematics (Grades 9, 10 and 13).

A curriculum committee also made progress in a comprehensive study of the problems of articulation of French-language instruction for English-speaking students. Composed of teachers of French from all levels of the school system and from the universities, the committee aims to provide a sequential programme in French from the elementary levels through five grades of the secondary schools.

The method by which one of the new courses was introduced into the schools in the year under review is noteworthy because of the pattern it may set for course implementation. The course, Man in Society, was presented for the first time in September, 1964, in only seven schools, using volunteer teachers of proven competence. During the year, the teachers planned to meet with the curriculum committee to revise the course outline as a consequence of their classroom experience. The course thus revised will become an option in the Four-year Programme for all schools in 1965.

Another feature of the course, Man in Society, is its emphasis on the use of community resources. The response by local jurists, doctors and social scientists to the request that they interpret certain aspects of the course augured well for the realization of one of the principal aims of the course, which is "to bring society into the classroom".

KINDERGARTEN AND GRADES 1 TO 6

The major revision of the curriculum for Kindergarten and Grades 1 to 6 was well launched during 1964. The preparatory step involved the attachment of five inspectors and teachers'-college masters to the staff of the Curriculum Branch to serve in the role of curriculum consultants. Educational information on aims, organization, research, methods and content was next compiled from a wide variety of sources. Plans were made for approaching major educational organizations in the Province for information and consultation. Courses of study developed by curriculum committees in local areas and in other educational jurisdictions will be analysed and evaluated as the revision proceeds.

In the second phase, a Provincial Committee composed of representative laymen and members of the Ontario Teachers' Federation will be asked to establish aims and objectives for the education of all children in Kindergarten and Grades 1 to 6.

This done, curriculum committees of professional educators will be called upon to give expression to these aims through the preparation of appropriate curriculum materials and course outlines.

CURRICULUM BULLETIN

As part of the process of course revision, a Curriculum Bulletin will be issued to the schools periodically, by which means it is hoped to involve teachers at the local level in an examination of current ideas and practices and in an assessment of the proposals that will be put forward by the Provincial Committee.

GRADE 13 REVISION

As a consequence of a decision to provide greater opportunity for study in

depth at the Grade 13 level, the Branch organized subject committees to make appropriate changes in all courses offered in that grade.

TEXT-BOOKS

With but few exceptions, the text-books approved for use in Ontario are developed by Canadian educational publishers and written by Canadian authors. A publisher submits a new text, or a revision of an existing title, for evaluation by the Department under one of three conditions:

- (a) as a result of the Department's issuing a new course of study;
- (b) when the publisher and author have determined that there is need for a new text based on a new or different approach, or designed to meet the needs of a special group of students; (for example, for a given course, one book might be prepared for students capable of study in depth, another for slow readers);
- (c) when a book that has been in use for some time is found to require updating of content, or approach, or both.

The system of multiple listing of approved text-books is considered to have three principal advantages:

- (a) it is a means of advising the schools of the availability of new books;
- (b) it makes it possible for teachers to select text-books according to the abilities and backgrounds of their students;
- (c) since a school is expected to adopt new or different text-books only as the existing books are worn out, the system ensures full and economical use of all books.

With the extension of the Reorganized Programme into Grade 11 and as a result of the development of new courses in the Five-year and Four-year Programmes, new text-books have begun to appear to meet the wide variety of interests and abilities for which the secondary school programme is designed. Text-books approved in 1964 in Mathematics, Art, History and other subjects are but the forerunners of many new books expected to appear in the next few years.

TEXT-BOOK GRANT IN GRADES 9 AND 10

Beginning in September, 1964, boards were required to provide all texts in Grades 9 and 10. To assist the boards during the initial year, a grant of \$12.00 per student of average attendance in Grades 9 and 10 was paid in 1964. Despite some problems of storage and distribution within the schools, such as might be expected in the first year of operation, the system has been credited with overcoming many of the difficulties formerly encountered by students in providing their books on an individual basis. Moreover, it is anticipated that, with the exercise of care and ingenuity by the local schools in the ordering of replacements in future years, the advantages of the flexibility in multiple listing will be maintained.

Professional Development Branch

SERVICES

The Professional Development Branch is responsible for promoting the concept of in-service growth among elementary-school teachers and for assisting in providing the opportunities by which such growth may occur. This assistance includes planning for courses and advice to inspectors and to teachers' groups in organizing and conducting institutes, workshops, conferences and seminars designed to improve professional competence. In 1964, Branch officials participated in 104 of these sessions as speakers and consultants.

During the year, large numbers of teachers attended in-service courses which varied in type from one-day sessions to extensive programmes held one night per week.

SUMMER COURSES

In 1964, approximately 10,000 teachers attended summer courses conducted by the Department of Education. Interest in summer courses and in all other aspects of in-service training has increased greatly during the past few years.

Since 1958, a policy of decentralizing courses has been followed in order to provide for the needs of the teachers in as many areas of the Province as possible. During July and August of 1964, 19 different types of courses were offered in 38 summer schools in 17 Ontario communities. To staff these schools, 592 full-time and 52 part-time teachers were employed.

The Professional Development Branch has responsibility for the administration and supervision of Department of Education summer courses.

WINTER COURSES

During 1964, five school boards were granted permission to conduct pilot winter courses leading to Departmental certificate credit. Admission requirements, attendance, regulations and hours of instruction are essentially the same as those for equivalent summer courses. Course content, assignments, examinations and qualifications of staff are subject to approval by the Department.

The Professional Development Branch acts in an advisory capacity to school boards conducting winter courses and is responsible for supervising them.

Schools Attended by French-Speaking Pupils

TEACHER SUPPLY

On October 15, 1964, there were 360 French-speaking student teachers in attendance at the University of Ottawa Teachers' College and the Sudbury Teachers' College, 66 of whom were enrolled in the course leading to the Interim Elementary School Teacher's Certificate and 294 in the course leading to the Interim Second Class Certificate.

In 1929-30, 25 per cent of French-speaking teachers held First and Second Class Certificates; in 1964-65, 96.81 per cent of French-speaking teachers held Standard I or Second Class Certificates.

SECONDARY SCHOOL ENROLMENT

On September 30, 1964, the total enrolment of French-speaking pupils taking advanced French courses in secondary schools was 7,005. There were, in addition, 5,905 French-speaking pupils enrolled in Grades 9 and 10 of elementary schools.

ELEMENTARY SCHOOL ENROLMENT

On September 30, 1964, there were 90,138 French-speaking pupils enrolled in separate and public schools, an increase of 1,087 over the preceding year. The number of French-speaking pupils in kindergarten classes was 8,332.

CORRESPONDENCE COURSES

Correspondence Courses for French-speaking pupils in Grades 1 to 8 have been available since 1942. The number of pupils taking these courses in November, 1964, was 34. The decrease in enrolment compared to previous years is due to the increasing number of schools being built in remote parts of the Province.

School Attendance

ENROLMENT

The total enrolment in elementary and secondary schools in September, 1964, was 1,673,774, an increase of 76,400 over the preceding year. The elementary schools showed an increase of 45,309 and the secondary schools an increase of 31,091.

EMPLOYMENT AND HOME PERMITS

A child who has attained the age of fourteen years may be granted a home permit or an employment certificate if his services are urgently required at home or in some gainful occupation elsewhere. A child under fourteen years of age may be granted a home permit or an employment certificate for a period of not more than six weeks in a school term.

The total number of employment certificates issued during the year 1963 was 3,124, a decrease of 161 from the figure for the preceding year, and the total number of home permits issued during the same period was 1,310, a decrease of 214 from the previous figure. The total number of cases brought before magistrates was 455.

PUPIL-ACCOUNTING AUDITORS

A division has been established to ensure the accuracy of Daily Registers of Attendance, maintained by teachers, and the annual Report of Attendance submitted by principals, information from which is used in the calculation of General Legislative Grants.

The division, currently consisting of four members, commenced work in January, 1964, and in the first year of operation inspected 2,125 Daily Registers in 245 schools.

Art

NEW COURSES FOR THE SENIOR DIVISION

A new programme in art for the Senior Division (Grades 11, 12 and 13) was prepared in 1962 and subsequently forwarded to secondary schools. The new programme replaced Curriculum S.13, 1959, for Grades 11 and 12, and outlined, for the first time in Ontario, a course for Grade 13. The programme was introduced in Grades 11 and 12 in September, 1962, and was used in Grade 13 in September, 1963. The first examination in Art for Grade 13 students was held in June, 1964, with over 200 candidates writing the examination.

SUMMER COURSES

Two summer courses in art for teachers-in-service were offered in Toronto and one was offered in Peterborough. One course in Toronto offered instruction leading to all art certificates, while the other led only to the Elementary Certificate. The Peterborough course led to the Elementary and Intermediate Part 1 Certificates. A record number of over 1,300 teachers attended the courses in the three centres.

SUPERVISION

Supervision of art instruction was carried out in all types of classrooms in various parts of the Province. Visits were made to teachers' colleges, collegiate institutes, technical schools and other secondary schools, and to elementary schools. Reports were prepared for school boards of elementary and secondary schools.

Audio-Visual Education

FILM DISTRIBUTION

Elementary and secondary schools served directly by the film library made increased demands for film service. The screening reports indicate 148,757 showings of films to a total school audience of 6,636,644 students during the current school year.

The policy of encouraging local boards of education employing a substantial number of teachers to operate their own basic film service was continued. Some additional blocks of films were placed on extended loan with local film libraries. The Audio-visual Branch has deposited 6,414 films with these libraries, and improved service to teachers in these areas has been effected.

NEW FILMS

As a result of the increased emphasis on curriculum revision, new titles were acquired by the Audio-visual Branch. Since the publication of the last supplement to the Visual Education catalogue, 83 additional titles have been acquired. Regular monthly screening sessions to evaluate recent educational film releases have been held during the school year.

TEACHER TRAINING

Four summer courses in Audio-visual Methods of Instruction were attended by 620 teachers. The primary purpose of these courses is to effect an improvement in the utilization of all types of audio-visual aids.

Assistance to local school boards in operating in-service training programmes was provided on several occasions. These workshops seem to be serving a most useful function in increasing teacher competence with the newer audio-visual techniques.

SCHOOL RADIO BROADCASTS

School radio broadcasts continued to be widely used in the elementary and secondary schools of Ontario. Evaluation reports indicate that this service makes a worthwhile contribution to those classes where radio broadcasts are used. With the co-operation of the Canadian Broadcasting Corporation, 160 programmes were prepared and presented. In addition, 49 national broadcasts, 10 exchange programmes from the British Broadcasting Corporation and 5 from the Australian Commission were offered.

Radio manuals outlining the series of broadcasts were distributed in quantities to all elementary and secondary schools during the month of September.

TELEVISION

Schools of Ontario were encouraged to use the National School Telecasts and the local programmes of the Metropolitan Educational Television Association.

The Ontario Advisory Council on Educational Television was organized to make recommendations to the Department on its use of television in education.

A television adviser has been added to the staff of the Audio-visual Education Branch. He is responsible for organizing television programmes for Ontario schools.

Auxiliary Education Division

NEW REGULATION

New regulations pertaining to Auxiliary Education Services became effective in June, 1964. The new legal framework for providing auxiliary services has attempted to retain aspects that have proven successful in the past and has attempted

to incorporate, and thus encourage, the establishment of additional services considered to be advantageous.

Provision has been made for the establishment of classes for neurologically impaired children and for emotionally disturbed children. Provision has also been made for itinerant teachers to work with pupils with hearing or vision disabilities.

In addition to junior and senior opportunity classes, the revision lists primary and intermediate opportunity classes. A primary opportunity class is described as designed to meet the needs of the young educable-retarded and slow-learning pupils (chronological age-range 6 to 8).

SERVICES

The Auxiliary Education Division is concerned with the educational growth of all school-age exceptional children. Exceptional children are those who for physical, intellectual or social reasons are in need of a modified or special educational programme. Such children include those of limited intellectual ability; those who are superior in learning capacity; those who are socially immature; those with orthopaedic, neurological, physical or speech disability; and those who are educationally retarded.

During the year 1963-64, the staff of the Auxiliary Education Division assisted local school authorities through: (1) 396 visits to special classes, special teachers and schools where units are established to assist the teachers concerned; (2) work with 119 children referred for assistance in the diagnosis of the problem and the development of an appropriate educational programme; (3) assistance in the establishment of new services through (a) the organization of 34 surveys, (b) the assessment of children, (c) working with the local staff and school boards; and (4) participation in twenty-seven in-service training programmes for teachers on special education topics, as they affect not only special classes but also atypical pupils in regular grades.

Special Services Inspectors visited four of the Teachers' Colleges during the year to outline to students the help that is available for them when they commence their work as teachers. Staff members participated in twenty-two educational conferences and conventions. Work has continued on the revision of Auxiliary Education Advisements. These advisements are available to any teacher upon request.

The Division maintains a library of approximately 6,700 magnatype books to assist pupils with limited vision, as well as a professional library of some 2,000 books for the free use of teachers and inspectors.

SUMMER COURSE TRAINING

Summer Courses leading to the Elementary, Intermediate and Specialist Certificates in Auxiliary Education were offered at Toronto. Courses at the elementary level were offered also at the Lakehead and Ottawa. Ten different options were offered covering various areas of exceptionality. An innovation in 1964 was the provision of an option to prepare auxiliary teachers, for working with neurologically impaired children.

A total of 1,111 attended the summer courses in auxiliary education, representing an increase of 130 over the previous year. One hundred and four teachers completed the summer school attendance requirements for the Specialist Certificate in Auxiliary Education.

TRAINABLE RETARDED CHILDREN

In 1964, school attendance grants were paid to 88 local associations for retarded children affiliated with the Ontario Association for Retarded Children. The Department of Education conducted a five-week summer course for teachers of trainable retarded children, and 76 teachers attended the course.

During the year, studies were instituted and consultations were held with interested organizations and persons for the purpose of exploring ways and means by which schools for retarded children might be operated and financed without resort to charity drives. At the second session of the 27th Legislature, the Government approved an Act to Amend the Schools Administration Act whereby local schools for retarded children would be operated by local Retarded Children's Education Authorities, effective January 1, 1965, and the cost of operating the school, including transportation, would be borne in full by public funds.

Community Programmes

SERVICES

The services of the Community Programmes Branch are conducted through two categories of staff members who work in close co-operation with municipal recreation committees, school boards, provincial, national and community organizations. Representatives located in District Offices at Belleville, Dryden, Fort William, Hamilton, Hanover, London, North Bay, Oakville, Ottawa and Toronto made 2,267 visits to Ontario municipalities to provide assistance, advice and resources for programmes of adult education and recreation. Working out of the central office in Toronto, special advisers in the fields of art, crafts, drama, music, puppetry, old-age programmes, rural programmes, recreation buildings and areas made 763 visits to Ontario municipalities to provide leadership, advice and resource aids for programmes of adult education and recreation. In order to make resource materials available for community use, the Branch staff produces a number of publications and maintains a loan service in drama, music, films, slides and reference books.

PROFESSIONAL TRAINING AND CERTIFICATION

The purpose of training and certifying workers in municipal recreation is to maintain and improve the standards of qualification of employees in this field. To meet increased demand for competently trained recreation personnel, a two-year diploma course was introduced at the University of Guelph in September, 1963. Graduates of this course will be available for employment in Ontario municipalities in May, 1965. The in-service training course administered through the Extension Department of the University of Western Ontario will continue until 1965. There are 115 students enrolled in this type of training. In the last 11 years, 158 Interim Certificates and 125 Permanent Certificates have been issued to individuals who qualified through the in-service training course.

RECREATION DEVELOPMENT

Ontario Regulation 92/60 provides provincial grants to municipalities which establish, through a by-law, a municipal recreation committee to conduct or assist local programmes. Between 1958 and 1964, the number of participating municipalities increased from 307 to 377 and grants paid increased from \$450,891 to \$687,889. There were 107 full-time recreation directors as well as 138 assistant directors employed by Ontario municipalities. Twelve provincial organizations providing programmes of adult education and recreation were paid grants in the amount of \$20,100.

LEADERSHIP TRAINING

Leadership has long been recognized by educators as the most important element in adult education and in organized leisure-time activities. One of the primary roles of the Community Programmes Branch is the provision of assistance to communities and groups in the development of administrative and activity leaders, night-school teachers and skill instructors for many types of community groups.

The training that the Branch provides, or sponsors in co-operation with one or more communities, is designed to increase the number of capable leaders in physical, social, creative and intellectual activities. Emphasis is placed on the techniques of instruction and programme-planning, the process of learning, the philosophy of recreation and adult education. The Branch is continuing to develop series of courses at community, area (two or more communities), district (several areas), and provincial levels. At each level, leaders are selected and receive progressive training in both skill and leadership techniques. In 1964, the Branch provided 333 courses for 15,603 leaders.

CO-OPERATION

In order to provide efficient service, the Community Programmes Branch works in co-operation with the following agencies: The Canadian Association for Adult Education; Ontario Federation of Home and School Associations; Ontario Federation of Catholic Parent-Teacher Associations; University Extension Departments; Ontario Federation of Agriculture; Indian Affairs Branch; Indian-Eskimo Association; Ontario Recreation Association; Society of Directors of Municipal Recreation of Ontario; Ontario Folk School Council; Ontario Camping Association; Ontario Field Naturalists; various sports associations; and several Branches of other Provincial Departments.

FITNESS AND AMATEUR SPORT

The Fitness and Amateur Sport Programme is administered jointly by the Physical and Health Education Branch and the Community Programmes Branch. In 1964, bursaries in the amount of \$27,500 were provided for students enrolled in physical education and recreation courses. There were 58 projects organized to assist municipalities in the development and training of their leaders and coaches.

Correspondence Courses

GENERAL INFORMATION

The Correspondence Courses Division provides Correspondence Courses for Ontario persons who are unable to attend school. During 1964, over 20,000 persons submitted applications for enrolment or re-enrolment. The age-group from which the greatest number of applications was received was that of persons between the ages of 20 and 25. Most applicants indicated that they were employed and were seeking to improve their positions by raising their educational standing. Applications from students under the age of 16, unable to attend school because of temporary absence from Ontario, distance from school, or illness, constituted only a small part of the total number of applications received.

The courses which are offered are academic subjects for Grades 1 to 13 (the courses at the elementary school level include courses in English for English-speaking children, bilingual courses for French-speaking children and courses for adults) and eleven trades courses in the fields of Automotive Mechanics, Carpentry, Machine Shop Practice and Radio Theory and Practice. All academic courses are free; a fee of \$10 per course is charged for trades courses. The academic courses are available to residents of Ontario and to persons normally resident in Ontario but living temporarily outside the Province; the trades courses are available to residents of all provinces.

During 1964, sixteen new secondary-school courses were prepared. Of this number, eight were courses in subjects which had not been previously offered and eight were courses prepared to meet curriculum changes or to improve presentation of material. Four elementary school courses and one trades course were also prepared. The addition of courses not previously offered enables students to qualify for Departmental Statements of Standing and Diplomas at any grade level.

Enrolment during 1964 in courses in both the elementary- and secondary-school grades shows a marked increase over the enrolment in 1963. Enrolment in Grade 13 continues to be greater than the enrolment in any other grade. The number of students working in the Correspondence Courses is constantly changing since in all secondary-school grades except Grade 13 a student may enrol at any time of the year and complete his course at any time of the year. The number of lessons marked during the 1963-64 school year was 186,630.

CERTIFICATES AND STANDING

In June, 1964, students prepared through Correspondence Courses wrote 1,788 Grade 13 Departmental Examination papers and were successful in 1,172, or 66% of the papers written. During the year July 1, 1963, to June 30, 1964, 462 Statements of Grade 12 Standing, 1,173 certificates covering subjects in other secondary-school grades and 38 trades-courses certificates were issued. Elementary-school courses were completed by 148 adults, and 139 elementary-school children were promoted.

Guidance Services**PROGRESS**

More than ever, Ontario school principals are recognizing, and attempting to cope with, the need for improved guidance services designed to assist students towards greater achievement, better educational planning and more effective vocational adjustment. The Guidance Services Division has provided leadership and encouragement to principals and teachers in their efforts to improve guidance services in the schools. For example, at the four summer courses in Guidance offered by the Ontario Department of Education in 1963, enrolment was 24 per cent higher than the previous top figure; in 1964, another 26 per cent increase took place, the number of participants being well over 900. To date, more than 3,400 Ontario teachers have received basic training for guidance duties.

As part of the effort to provide more trained counsellors for this Province, a pilot winter course in Guidance, planned and operated by the Board of Education of North York with the approval of the Department of Education, has been established. More than 160 teachers are enrolled in this course leading to certification in Guidance.

During the past summer, members of the Guidance Services Division co-operated with the Ontario Secondary School Teachers' Federation to provide a Refresher Course for trained guidance personnel. Throughout the year, the Guidance Services Division has continued to encourage local in-service training courses in Guidance, and is now able in increasing measure to involve as leaders some of the trained counsellors of the area concerned.

SUPERVISION AND INSPECTION

This year, one additional inspector was added to the staff of the Guidance Services Division, raising the inspectoral complement to six and making possible a more nearly adequate inspection coverage of the Guidance programmes in the schools.

INFORMATION SERVICES

In co-operation with the Guidance Centre of the Ontario College of Education, the Department of Education continues to provide up-to-date educational and occupational information to all publicly-supported secondary schools in the Province. Several promising projects designed to increase the interchange of vocational

information between business and industry and the schools have been launched. Liaison is maintained with such allied services as the National Employment Service, the University Counselling and Placement Association, the Ontario Chamber of Commerce, and the Canadian Association for Adult Education, in order that current information about developments and trends in education and employment may be made available to counsellors in the schools.

Music

MUSIC INSTRUCTION

Courses in Music under qualified music teachers were provided in 81 per cent of the elementary schools of the Province. Music was also taught in 321 secondary schools. There were 329 school choirs, 238 bands and 92 orchestras in these schools; 19 Gilbert and Sullivan operettas were performed during the year. Music festivals, competitive and non-competitive, were held in approximately 150 centres with more than 60,000 pupils participating.

TEACHER TRAINING

There were 1,102 certificated music teachers and supervisors engaged in the elementary schools and 427 in the secondary schools of the Province during the school year 1963-64. Music is taught in all of the Teachers' Colleges, and there was an enrolment of 724 teachers at the summer courses in music in 1964.

MUSIC OPTION

Music is an optional subject in secondary schools, and pupils may obtain standing either through the regular course or by presenting the certificates of certain accredited examining bodies. In 1964, Grade 12 standing was attained by 4,259 pupils. Credit in music towards a Secondary School Honour Graduation Diploma was obtained by 773 pupils who tried the Departmental Grade 13 examinations and by 1,510 pupils who presented equivalent certificates.

RADIO

Twenty-five music broadcasts were presented in four series during January, February, March and April: "Primary School Music," five 15-minute programmes for Grades 1 to 3; "Junior School Music," five 15-minute programmes for Grades 4 to 6; "Music for Young Folk," ten 30-minute programmes for Grades 7 to 10; and "Ontario Sings," five 15-minute programmes for Grades 5 to 8. All were broadcast with commentary prepared and given in each case by the Music Branch of the Department of Education.

Ontario School for the Blind

ENROLMENT

In September, 1964, a record enrolment of 251 students was admitted to the Ontario School for the Blind, Brantford. Of the 245 who were in attendance the previous year, 20 withdrew after graduation or to seek employment or for other reasons, and their places were taken by 26 students new to the school. Thirteen of the newcomers were beginners and the remainder were evenly scattered through Grades 2 to 11, having spent a varying number of years in the regular schools. One hundred and forty-one boys and 110 girls make up the student body, 195 being Ontario children; of the rest, 6 are from Alberta, 25 from Saskatchewan, 18 from Manitoba, 5 from Quebec and two are Eskimo children. The normal age-range is from 6 to 20 years but six students over the age of 21 were admitted by special permission because of unusual circumstances.

PROGRAMME

A comprehensive educational programme is provided to meet the varying needs of visually handicapped children. The Ontario Courses of Study for Grades 1 to 12 inclusive are followed, consideration being given to students who will continue their education in university and to those who will leave school at the completion of Grade 10 or Grade 12. The basically academic programme is supplemented with a variety of vocational courses designed to develop both living skills and those which will be of use for future employment. The boys have industrial-shop and piano-tuning classes while the girls study home economics and crafts and both have regular typing classes.

Music is an integral part of the work of each grade, the regular elementary-school music course leading naturally into the high-school music option. Opportunity is given each student to develop musical interest and talent to the limit of his ability. Active participation in a full programme of physical education includes indoor and outdoor games, track and field, skating and hockey. Extra-curricular activities include: Cubs; Scouts; Guides; Brownies; a United Nations Club; social activities, such as parties and dances; and regular attendance at musical and dramatic presentations in the city.

GRADUATES

Nine students graduated from Grade 12 in June, 1964. Of these, one enrolled directly in university, three are attending Grade 13 in their home schools prior to university entrance, one is employed as a piano-tuner, one is being trained by the C.N.I.B. to be a dictaphone-typist, two are employed in canteens pending the securing of other work and the ninth is back at the school studying the pipe-organ for an attempt at the A.R.C.T. degree in music. If successful, he will enrol in the Royal Conservatory to prepare for a second degree in music.

NEW ACCOMMODATION

During the year, a new dormitory to provide accommodation for sixty senior boys has been under construction. The completion date is February, 1965, and the new quarters will be occupied, in part at least, almost immediately.

Ontario School for the Deaf, Belleville

ENROLMENT

The Ontario School for the Deaf, Belleville, continued to serve deaf children from all parts of Ontario except junior children from Southwestern Ontario, who attended the new school at Milton. Thirty-eight beginners, ages five to eight years, from Central, Eastern and Northern Ontario were enrolled in Belleville in September, 1964. The enrolment on October 15, 1964, was 503 (293 boys and 210 girls), all from Ontario and distributed as follows: Junior School 189, Intermediate School 117, Senior School 197. Pupils range in age from five to twenty years.

PROGRAMME

With a staff of specially trained teachers and residence counsellors, the school aims to provide a comprehensive academic, vocational, physical, social and religious education to prepare deaf and severely hard-of-hearing children to take their places in society as self-supporting adult citizens. In the junior grades, vocabulary and language development are necessarily given first importance. In the senior classes, basic academic courses to the Grade 10 level and a variety of vocational courses are provided. The opening of the new Boys' Vocational Building in January, 1964, has made possible more varied and more

advanced vocational courses for the older boys. Extensive programmes of physical education and recreation, as well as such extra-curricular activities as club and hobby groups and driver instruction, are conducted by teachers. Religious instruction is given by the teachers assisted by local clergymen.

For the first time, all pupils were able to go home for the Christmas vacation in December, 1963. At Christmas, 1964, all the students again went home. More week-end home-going by pupils of all ages is being encouraged. In October, 1964, senior students began to use regular public transportation to travel to and from their homes for week-ends. To develop more independence and responsibility, a Student-Council form of student government has been inaugurated this term.

GRADUATES

An unusually large group of forty students graduated in June, 1963. The majority of these went directly to employment in their home communities through the co-operation of their parents, the school guidance department and the placement officers of the Canadian Hearing Society. Six students were successful in gaining admission to Gallaudet College for the Deaf in Washington, D.C. Four of these entered the preparatory course there and two entered directly into the freshman year.

Ontario School for the Deaf, Milton

ACCOMMODATION AND ENROLMENT

From an enrolment of 159 in October, 1963, an additional 48 students have been accepted, making a total of 207 children—104 boys and 103 girls. The capacity of the junior residence is 210.

Construction of buildings for intermediate and senior students has begun. This group of buildings includes an academic school, a vocational school, an auditorium, senior girls' and senior boys' residences, a sports complex, a vehicle-storage building and three staff houses. These new facilities will permit the transfer, in due time, of older students who now attend the Belleville School but who live in the part of Ontario served by the Milton School, that is, west of Highway 400.

SERVICES

The present academic programme is serving junior-school children aged from 5 to approximately 13 years. Audiological services are provided in the school clinic for both resident children and children referred to the school by public-health and other authorities. A home-visiting teacher assists parents of pre-school children in suitable home training methods for their young deaf children. A total of over 40 children are involved in this programme. As the school grows and develops, the value of its programme for deaf students in Western Ontario increases accordingly.

Physical and Health Education

SERVICES

The Physical and Health Education Branch is responsible for the supervision of the Physical and Health Education programmes of the schools in the Province. In addition, the Branch is responsible for the operation and administration of two centres devoted to the development of leadership potential in selected secondary-school students and for organizing summer courses and in-service training courses

for teachers and supervisors of physical and health education. The Branch also serves as liaison for the Department of Education with military services and cadet programmes, non-profit camping organizations and other agencies with interests in fitness, amateur sport, health or physical education. The Physical and Health Education Branch and the Community Programmes Branch are responsible for the implementation of co-operative planning with the Department of National Health and Welfare in the areas of fitness and amateur sport.

Enrolment in the Physical Education summer courses continued to increase in 1964. The programme of bursaries and scholarships to students in Physical Education undergraduate courses was expanded. This year, 159 bursaries or scholarships were awarded. These are available to the students under the terms of the Federal-Provincial Agreement on Fitness and Amateur Sport. The Inter-departmental Committee on Health has continued the development of liaison between the Department of Education and the Department of Health, and has formed a sub-committee to consider smoking and health. The Health Curriculum Committee, which was formed with the co-operation of the Curriculum Branch, continues to meet. The complexity of the problems and the thoroughness with which they are being discussed have resulted in more time being required than was at first anticipated.

It is expected that the activities phase of the Physical Education programme will be revised upon completion of the Health course. In the interval, secondary schools have been given permission to introduce new activities to broaden the programmes so that students will have an opportunity to develop skills which will be more closely allied to their needs. In recognition of the need for facilities to develop adequate Physical Education programmes, the Department of Education recently advised school boards that, if an addition is planned for a secondary school which has an enrolment exceeding 200 but does not have a gymnasium, an amount of \$50,000 may be approved for grant purposes for a single gymnasium.

ONTARIO ATHLETIC LEADERSHIP CAMP

One boy and one girl from each secondary school in the Province are eligible to attend an intensive two-week leadership course at the Ontario Athletic Leadership Camp, Longford Mills. It is encouraging to note the development of the students' leadership potential during the course. The Physical Education Branch recently circulated a follow-up questionnaire to schools which have sent students to the camp. The information regarding their educational level and careers which was gained from this questionnaire will allow the officials of the Department to make a better estimate of the success of the programme. A total of 768 Grade 11 students attended the courses in 1964. Two girls' courses were held in July and two boys' courses in August. The facilities of the camp are used by many provincial organizations during the remainder of the year for educational conferences.

ONTARIO CAMP LEADERSHIP CENTRE

Three courses—two for girls and one for boys—were conducted at the Ontario Camp Leadership Centre, Irondale. The 280 leaders-in-training, who were recommended for attendance by the directors of non-profit camps throughout the Province, follow a programme designed to provide them with the techniques and skills of camping and of leadership. When they return to their sponsoring non-profit camp, they are prepared to make a significant contribution to the programme. In the past year, a programme of construction has begun which will eventually provide opportunities for more leaders to participate in the programme. This has included the installation of hydro-electric power.

GRANTS TO NON-PROFIT CAMPS

The Department of Education is aware of the educational values of progressive, challenging camp programmes. Grants are paid to non-profit camps in accordance with Regulation 86, the terms of which were revised during the year after consultation with the camp authorities. Some \$65,000 was awarded in such grants during the last fiscal year.

Provincial Library Service

PUBLIC LIBRARY DEVELOPMENT

Regional library development was an important theme in public library affairs in 1964. Three new regional library co-operatives were formed: the Lake Erie Regional Library Co-operative and the Midwestern Regional Library Co-operative in Southern Ontario; and the Lake Ontario Regional Library Co-operative in Eastern Ontario. In Northern Ontario, the Algonquin Regional Library Co-operative was enlarged by the addition of Nipissing District.

Four new municipal library boards were formed, and several buildings were constructed or enlarged. The legislative vote for assistance grants to public libraries was increased to \$2,800,000. A grant was made to the Ontario Library Association to permit the beginning of a series of studies of library organization and service.

USE OF LIBRARIES

Circulation of books in 1963 reached 39,837,642, and the total circulation, including use of reference books, films and other materials, was just under forty-two million. Public library expenditure for the Province was \$14,250,000, or \$2.30 per capita.

LIBRARIANSHIP

Increased enrolment was reported for the course leading to the Bachelor of Library Science degree with the result that 101 students graduated from the Library School of the University of Toronto. Library courses were also given by the University of Ottawa and by the Department of Education.

PROVINCIAL SERVICE

Workshops, conferences, meetings, reports, the publication of the **Ontario Library Review** and compilation of statistics are instances of the work of the Provincial Library Service Branch. The Branch also operates a library service for isolated communities and schools, as well as a reference service for teachers.

In Memoriam

HARRY E. AMOSS, B.A., D.Paed., who retired from the position of Superintendent of Professional Training in November, 1948, died on December 20, 1964. Shortly after his retirement, Dr. Amoss served very ably for several years as Honorary Adviser to the Minister of Education with respect to the then developing programme of schools for retarded children. A tribute to his service as a staff member in the Department of Education was given in the 1948 Report of the Minister.

ROBERT W. ANGLIN, M.A., who retired on January 11, 1944, from the position of Inspector of Secondary Schools, and who had served as Registrar and Inspector for more than 30 years, died on September 11, 1963. Mention was made of his service in the 1945 Report of the Minister.

T. R. BROWN, B.A., M.Ed., Inspector of Public Schools, Haldimand No. 1, died suddenly on November 27, 1964. Mr. Brown was born in Armour Township, District of Parry Sound, and received his elementary education in Woodstock Public Schools. After graduating from Woodstock Collegiate Institute, he attended London Normal School. In 1934, he began his teaching career in S.S. No. 2 Machin. He taught in S.S. No. 7 East Oxford and in Hespeler Public School. Mr. Brown served as principal of schools in Neustadt, Petrolia and Fort William from 1937 to 1956. He received a Bachelor of Arts degree from the University of Western Ontario in 1954 and a Master of Education degree from the University of Toronto in 1963. He was appointed Inspector of Public Schools, Haldimand No. 1, with residence at Caledonia, on September 1, 1957. Mr. Brown was a dedicated, conscientious inspector who enjoyed the respect and affection of the teachers and principals with whom he worked in Haldimand County. His interest in exceptional children was reflected in his work with the Haldimand Association for Retarded Children.

A. W. ROSS DOAN, M.A., D.Paed., who retired on June 30, 1948, from the position of Public School Inspector for the Toronto Board of Education, died on November 13, 1964. A tribute to his service was given in the 1948 Report of the Minister.

CLARA E. ELLIOTT, who retired on December 31, 1950, from the position of Instructor of Home Economics and Dean of Women at the Hamilton Normal School, died on October 19, 1964. She was born in Hamilton and received her elementary and secondary school education in that city. Upon graduating from secondary school, she enrolled in a Teacher Training and Home Economics Course at Macdonald Hall in Guelph. On completion of this course, she was appointed, as Instructor of Home Economics, to the staff of the Hamilton Normal School where, for more than forty years, she devoted herself to teaching and practising the best and most modern methods. During her years of service, she was Principal of many Departmental summer courses in Home Economics and was mainly responsible for establishing the Home Economics programme in rural schools. As Dean of Women, she gave guidance and wise counsel to thousands of young students. Her keen interest in Home Economics, her instructional skill and her kind and sympathetic manner were an inspiration to many teachers in the schools of this Province.

HERMAN E. FAWCETT, B.A., Secondary School Inspector for the City of Brantford, died on November 15, 1964. He was born in Clarksburg and was a graduate of Hamilton Normal School, Queen's University and the Ontario College of Education. He taught in Lefroy, Embro, Melbourne, Salford and Seeley's Bay, then was Principal of Lakefield High School and on the staff of the Fort William Vocational School. He was appointed to the Brantford Collegiate Institute and Vocational School staff in 1944, to the principalship of the Pauline Johnson Collegiate Institute in 1954 and to the position of Secondary School Inspector in July, 1964. Mr. Fawcett made important contributions in the field of teaching history. In 1942, he devised a 3-unit method of teaching history in Grades 9 and 10. Later he developed new methods in teaching Grade 12 history. He was a man of fine scholarship, generous with his talents and wise in his judgments. He participated in community activities and accepted positions of leadership in church and other social organizations.

JOSEPH LAPENSEE, B.A., who retired on April 11, 1964, as Separate School Inspector for Plantagenet R.C.S.S. Division, died on September 24, 1964. After graduation from the University of Ottawa in 1916 and from the Ontario College of Education in 1917, he successively held the positions of Principal of the Alfred Separate School, Assistant of the Model School at Sturgeon Falls, Separate School Inspector first at Ottawa and then at Windsor, Vice-Principal of the Model School at Sturgeon Falls and Principal of the Embrun Model School. Since October, 1932, he had been a School Inspector in Eastern Ontario, with residence for most of the time at Plantagenet. Mr. Lapensee thus served for a period of 45 years and 4

months as a devoted public servant in the Department of Education, acting in different capacities in Model Schools and School Inspectorates in the Province. His scholarship and paternal solicitude were continuously recognized by the students and teachers whom he taught or supervised.

HAROLD M. MATTHEWS, who retired on January 1, 1962, from the position of Registrar of Trade Schools, and who had earlier served for many years as an Inspector of Industrial Arts in the elementary and secondary schools, died in Florida on November 21, 1964.

J. LINDSAY McCULLOUGH, B.A., B.Paed., who retired on July 31, 1956, from the position of Assistant Superintendent of Public Schools for the Toronto Board of Education, died on October 21, 1964. A tribute to his service was given in the 1956 Report of the Minister.

NORMAN POMFRET, Master at the Hamilton Institute of Technology, died on May 9, 1964. In England, his native country, he received extensive training in textile technology and worked for a quarter of a century in the textile industry. Subsequently, before coming to Canada, he held an important position in the cotton industry in the West Indies. In Canada, after service in a managerial capacity with Montreal Cottons Limited at Valleyfield, Quebec, he joined the textile department of the Hamilton Institute of Technology. In addition to teaching a full-time course in cotton-processing there, he participated actively in the affairs of the Textile Society of Canada, Western Division. Mr. Pomfret's personality, broad general experience and detailed knowledge of the cotton industry in all its aspects were highly respected on both sides of the Atlantic.

J. V. SCANLAN, B.A., who retired on January 4, 1958, from the position of Separate School Inspector in the City of Hamilton, died on May 20, 1964. A tribute to his service was given in the 1958 Report of the Minister.

HAROLD J. VALLENTYNE, B.A., M.A., LL.D., who retired on December 31, 1955, as Superintendent and Principal of the Ontario School for the Blind at Brantford, died in Brantford on November 3, 1964. A tribute to his service was given in the 1956 Report of the Minister.

Retirements on Superannuation

A. F. BROWN, B.A., Inspector of Public Schools for Grey No. 1 and the City of Owen Sound, retired on August 31, 1964. Mr. Brown was born near Owen Sound and received his early education in a rural school. He then attended the Owen Sound Collegiate Institute and later North Bay Normal School. After teaching in Northern Ontario for a few years, he went to the Oshawa Collegiate Institute as a teacher of Science. In 1932, Mr. Brown was appointed a Public School Inspector, with headquarters at Haliburton, and later served as Inspector in Prince Edward County. In 1953, Mr. Brown returned to his home area of Grey County where he was Public School Inspector for eleven years. His quiet, kindly and sympathetic manner meant a great deal to the many hundreds of teachers and students with whom he was associated. Mr. Brown will long be remembered for his sound scholarship, his personal integrity and his never-failing interest in the problems of his teachers and his associates.

GEORGE N. EDWARDS, B.A., B.Paed., retired from the position of Public School Inspector for Perth No. 2 on July 31, 1964, after serving as an inspector for thirty-three years. Born in the village of Brussels in Huron County, he attended elementary school there, and then received his secondary school education in Stratford. He was a graduate of the University of Western Ontario and of the Faculty of Education of the University of Toronto. After teaching in the City of London public schools for eleven years, he was appointed Inspector of Public

(continued on page 28)

STANLEY D. RENDALL, B.A., LL.D.

STANLEY D. RENDALL, B.A., LL.D., retired on August 31, 1964, from the position of Superintendent of Secondary Education for Ontario. Dr. Rendall was born in Blenheim Township, Oxford County, and received his elementary and secondary education in the Plattsville Public and Continuation Schools and the Woodstock Collegiate Institute. He graduated with honours in Classics from Queen's University and obtained his High School Specialist's Certificate from the Faculty of Education, University of Toronto. He holds also the High School Principal's Certificate. He taught in the Paisley, North Augusta, Plattsville and Elmira Continuation Schools and, in 1921, was appointed to the staff of the Woodstock Collegiate Institute. In 1929, he became Vice-Principal and Head of the Classics Department of the Brantford Collegiate Institute and Vocational School. Dr. Rendall was appointed a Provincial Continuation School Inspector in 1931 and became a general Secondary School Inspector in 1936. During the year 1942, he was on loan to the National Selective Service Branch of the Federal Government's Department of Labour. From 1945 to 1950, under the direction of the Department of Education, he was engaged in advising and assisting county and municipal councils in dividing the counties and including the municipalities in high school districts. His conception, and subsequent organization, of secondary school districts constituted a major contribution to the progress of education by way of adequate school buildings and the provision of transportation for rural secondary school pupils. Dr. Rendall was appointed an Assistant Superintendent of Secondary Education in charge of school organization in 1952 and Superintendent of Secondary Education in 1956. In May, 1959, the University of Western Ontario bestowed upon him an honorary Doctor of Laws degree in recognition of his work in education. Under his leadership in recent years the secondary school boards of the Province took full advantage of the opportunity to construct vocational school accommodation under the Federal-Provincial Technical and Vocational Training Agreement, while his wisdom and vigour contributed much to the launching of the reorganized programme of studies in secondary schools during his superintendency. A man of energy and vision, Dr. Rendall will be remembered for his constructive influence on the development of Ontario's secondary school system.

(Continued from page 26)

Schools for Glengarry County, a position which he held for six years prior to his transfer to Stratford. There, for the next twenty-seven years, he served as Inspector of Public Schools in Perth No. 2. Particularly interested in Language, Reading and Phonics, Mr. Edwards edited workbooks and text-books in these subjects and taught for a number of years in Language and Reading at Dalhousie University Summer School in Halifax, Nova Scotia. Mr. Edwards has made a significant, scholarly contribution to the improvement of academic standards, not only in the schools under his jurisdiction but also farther afield.

T. ORVAL W. FOWLER, B.Com., B.Paed., retired on August 31, 1964, from the position of District Secondary School Inspector for the Counties of Ontario and York and for the municipalities of Forest Hill, Leaside and East York in Metropolitan Toronto. He was born in Huron County and obtained his elementary and secondary education in Alberta. After attending Normal School he taught in rural and graded schools in Alberta and became Principal of the Public School in Red Deer. Upon graduation in Commerce from Queen's University he served as Principal of the Red Deer High School. Following attendance at the Ontario College of Education, he taught in Malvern Collegiate Institute, Eastern High School of Commerce, and as Head of the Commercial Department at East York Collegiate Institute. In 1943, he was appointed a Secondary School Inspector of Commercial Classes and in 1959 became a District Inspector. During his long service in the field of commercial education, he served as President of the Ontario Commercial Teachers' Association and the Ontario School Inspectors' Association. His tireless efforts to raise the standards of commercial education in Ontario have done much to achieve a close liaison between Department officials and business personnel.

ROBERT GAUTHIER, B.A., D.Paed., F.R.S.C., retired as Director of French Instruction for the Ontario Department of Education on October 31, 1964. After obtaining the degrees of B.A., Ph.B., and Ph.L. from the University of Ottawa, he graduated from the Faculty of Education of the University of Toronto. Later he received the degrees of B.Paed. and D.Paed. from the University of Montreal and D.Paed. from Laval University. In 1957, he was elected a Fellow of the Royal Society of Canada. He served for a time as R.C. Separate School Inspector with the Ontario Department of Education and as a Master in the Ottawa Normal School, and in 1937 he was appointed to the position of Director of French Instruction. In 1949, at the request of the Ontario Minister of Education, Dr. Gauthier conducted a survey of systems of education in six countries of Europe and, in 1954, he carried out a UNESCO educational mission in Burma. In 1959, he was a Canadian delegate to the International Conference on Education in Geneva. He has been President of L'Association canadienne des Édicateurs de Langue française and of La Société des Conférences de l'Université d'Ottawa; Vice-Chairman of the National Committee of the Canadian Conference on Education; Vice-President of l'Alliance française d'Ottawa; and a director of the English-speaking Union of the Commonwealth, Ottawa Branch. He is the author of a French reader entitled *Frou-Frou et Fin-Fin*, published in 1939. Dr. Gauthier will be remembered for the service that he gave in the direction of French instruction for French-speaking pupils and for the encouragement he gave to the establishment in recent years of French classes for English-speaking pupils in the elementary schools.

JOSEPH A. GIBSON, B.A., B.Paed., retired as Superintendent of Public Schools for York No. 5 (Vaughan T.S.A.) on July 31, 1964, after 44 years of faithful service to education in the Province. Mr. Gibson had previously been employed as a Provincial Inspector, and a tribute to his service in that capacity was included in the 1960 Report of the Minister.

S. ALEC GORDON, Instructor in Professional Training at the Ontario School for the Deaf, Belleville, retired on August 31, 1964, after thirty-nine years of distinguished service to deaf children in this Province. Born in London, England,

Mr. Gordon received his elementary education in Belleville public schools and was the Carter Scholarship winner at Belleville Collegiate Institute in 1924. After graduation from Toronto Normal School, he joined the staff of the Ontario School for the Deaf in 1925 and took the training course to become a specialist in teaching the deaf. An able musician, he developed a rhythm programme for deaf pupils which was closely related to the teaching of speech and auditory training throughout the school. In April, 1953, he was appointed Instructor in Professional Training with special responsibility for the rhythm programme, the teaching of speech, auditory training and lip-reading. For many years the School's annual concerts featured operettas composed and directed by Mr. Gordon. A man of high principles and great organizing ability, Mr. Gordon, through his enthusiasm, industry and consistent good humour, was an inspiration to all who learned from him and worked with him.

WILLIAM A. HAYDEN, M.A., M.Ph., Inspector of Separate Schools for Toronto R.C.S.S. Division No. 5, retired on September 11, 1964. Mr. Hayden was born in Ottawa and obtained his elementary school education in St. Patrick's School in that city. He attended the University of Ottawa, from which he graduated with a Bachelor of Arts degree and a Master's degree in Philosophy. Following his successful post-graduate studies, Mr. Hayden joined the staff of the University of Ottawa as a lecturer in languages. Subsequently, he accepted the appointment of Head of the Department of English on the opening of St. Patrick's College, Ottawa. In the year 1933-34, Mr. Hayden attended the Ontario College of Education, and on his graduation he received the appointment to teach English and History in Lisgar Collegiate, Ottawa, a position which he held until he was appointed a Separate School Inspector on September 1, 1940. Mr. Hayden was untiring in his efforts to assist and direct his teachers at all times to the end that a maximum of educational accomplishment might be achieved by the pupils under their care.

WILLIAM K. F. KENDRICK, B.A., B.Paed., retired from the position of Principal of the Ottawa Teachers' College on August 31, 1964. Born in the County of Leeds and Grenville, he received his early education in a rural school and at Brockville Collegiate Institute. Upon graduating from secondary school with a Carter Scholarship, he taught in a rural school for a year, then enrolled at the Faculty of Education in Kingston. Before completing his training as a teacher, however, he enlisted and served overseas with a Canadian Army unit for three years during World War I. In 1920, he returned to the Faculty of Education and graduated in the same year. After teaching and serving as Principal of an elementary and continuation school in Sioux Lookout for two years, he joined the staff of the Ottawa Technical School. While teaching, he continued his studies at Queen's University and graduated in 1926 as Bachelor of Arts with honours in English and History. A few years later, he received a Bachelor of Pedagogy degree from the University of Toronto. In 1931, Mr. Kendrick was appointed to the staff of the Toronto Normal School where he continued to teach until his appointment as Principal of the Ottawa Normal School in January, 1946, except for a two-year interval as Inspector of Public Schools in South Simcoe. During his long and distinguished career in the field of teacher education, Mr. Kendrick has given wise counsel to thousands of students and teachers. His good judgment, sound scholarship and strong leadership will long be remembered by his former students, members of his staff and associates.

NORMAN MUIR, B.A., B.Paed., was born at Glenannan, Huron County. He attended public school in S.S. No. 3 Turnberry and graduated from the Wingham High School and Toronto Normal School. He taught public school in S.S. No. 3 Turnberry. He attended Queen's University, graduated with an honour degree in English and History in 1934 and received a Bachelor of Pedagogy degree from the University of Toronto in 1938. From 1942 to 1946, he served with distinction in the army in England and Holland. From 1938 to 1942, and again from 1946

to 1948, he taught high school in Ridgetown. He was appointed Public School Inspector in 1948 and served in Rainy River District from 1948 to 1956 and in Peel County from 1956 until his retirement on September 14, 1964. His genial personality and wise counsel endeared him to all who sought his help. His conscientious service to education will long be remembered with appreciation by his former students and associates.

ELWOOD OAKES, B.A., B.Paed., retired from the position of Public School Inspector for Middlesex No. 3 on August 31, 1964, completing almost forty-two years in the employ of the Department of Education. He received his elementary and secondary school education in the City of Guelph and his teacher training at Stratford Normal School. He was a graduate in Arts from Queen's University and in Pedagogy from the University of Toronto. After teaching for more than six years in rural schools near Guelph and in the Galt Public School, he joined the staff of the Ottawa Normal Model School in January, 1923, serving as Principal between 1930 and 1939. In 1939, Mr. Oakes was appointed Public School Inspector for Leeds No. 2; in 1949 he assumed similar duty in Middlesex No. 3, with an office in Strathroy, the position which he held at his retirement. A firm advocate of the improvement of school accommodation in the rural areas, he encouraged the construction of rural central schools. The many rural central schools in the vicinity of Strathroy attest to his leadership in this field. A wise and kindly inspector, Mr. Oakes gave invaluable assistance through the years to teachers and school boards as well as to his colleagues in the inspectors' ranks.

L. E. ROUSE, B.A., B.Paed., retired from the position of Public School Inspector for the Hamilton Board of Education on August 31, 1964. Mr. Rouse was born in Dereham Township, Oxford County, and received his early education in the Tillsonburg Public Schools. After completing his secondary education in Tillsonburg, he attended Hamilton Normal School. Mr. Rouse's first teaching assignment was in S.S. No. 3 Moulton in Haldimand County. In 1923, he was appointed Principal of Lloyd George Public School in Barton Township. He held this position until 1929 when, by annexation, the school became one of the Hamilton Public Schools and was renamed Inverness School. During this period, he obtained a Bachelor of Arts degree at McMaster University and a Bachelor of Pedagogy degree from the University of Toronto. He served as Principal of the G. L. Armstrong, Bennetto and W. H. Ballard Public Schools and was appointed to the position of Inspector of Public Schools for the City of Hamilton on January 1, 1949. Mr. Rouse has had a very successful career in education. Among other laudable qualities, his tact, warmth of heart and good judgment have always been outstanding characteristics. He is greatly respected by those with whom he has worked and will be remembered with appreciation by teachers and pupils alike.

VERA E. RUSSELL, Mus. Bac., B.Ed., Master at the Toronto Teachers' College, retired on August 31, 1964. Born in Emsdale, Ontario, she received her elementary and secondary education in Toronto. While attending secondary school, she studied vocal music, theory, piano and organ at the Toronto Conservatory of Music. Prior to her appointment to the staff at the Toronto Normal School in 1938, Mrs. Russell served for fourteen years as Music Supervisor in Halton County schools and was responsible for organizing, in 1928, the first music festival in Ontario held outside the large urban centres. During the many years she taught music at the Toronto Teachers' College, she was an inspiration to thousands of students and a competent adjudicator at music festivals throughout the Province. While teaching, she continued her studies and obtained a Music Baccalaureate degree from the University of Montreal and a Bachelor of Education degree from the University of Toronto. As an outstanding teacher and author of books on the teaching of music, Mrs. Russell has made a lasting contribution to education in Ontario. Her fine personal qualities and her dedication to music education will long be remembered by her former students and associates.

J. W. TRUSLER, B.A., M.Ed., retired as Public School Inspector for Nipissing No. 5 on December 31, 1964. Born at Camlachie in Lambton County, he attended elementary and secondary schools at Plympton and Forest. He graduated from Stratford Normal School on June 6, 1917, and joined the Royal Flying Corps on the following day. He served as fighter pilot and as instructor in advanced flying from 1917 until May, 1919, and again as Assistant Chief Flying Instructor with the R.C.A.F. at Camp Borden from July, 1929 to April, 1932. Between 1919 and 1929, he taught in elementary schools for over 8 years, including 4 years as a principal in Chapleau and 2 years as a vice-principal in Kitchener. After leaving the Air Force in 1932, he taught in East York, served as Provincial Secretary of the Ontario Public School Men Teachers' Federation, and spent two years as Field Secretary of The Ontario Educational Association. Mr. Trusler received a B.A. degree from the University of Toronto in 1937 and a Master of Education degree in 1955. In 1939, he was appointed Public School Inspector with residence in North Bay where he served until his retirement. During his twenty-five years as an inspector, he took an active part on Provincial curriculum committees and, for 20 years, he volunteered his services as an instructor for Departmental summer courses. Keenly interested in community affairs, he served on the North Bay Public Library Board and was Chairman of the Northeastern University Executive Council. A man of vigour and perception, he contributed much to education over a large area, including parts of Nipissing District, Parry Sound District and the City of North Bay.

ANNIE W. WANNAMAKER, Instructor in Professional Training at the Ontario School for the Deaf, Belleville, retired on August 31, 1964, after 38 years of dedicated service to the school. Born in England, she came to the Belleville area at an early age and attended Cannifton-Corbyville Public School. After graduation from Belleville Collegiate Institute, she taught in the one-room school at Hartsmere, North Hastings, until her marriage. Following the death of her husband, she attended Peterborough Normal School and taught for two years in the one-room Milltown Public School. She was appointed to the staff of the Ontario School for the Deaf in 1926 and took the training course as Teacher of the Deaf. Specializing in the teaching of speech and language, she took summer courses in Toronto, Halifax and Northwestern University in this field. In 1953, she was appointed Instructor in Professional Training. During her career at the School for the Deaf, her sound teaching techniques and keen interest in each individual not only endeared Mrs. Wannamaker to her students but were an example to the many teachers whom she has guided and supervised.

SERVICE RECORD — PERSONNEL EMPLOYED BY PROVINCE OF ONTARIO DIED IN SERVICE

T. R. Brown	Elementary School Inspector, Elementary Education Branch, November 27, 1964.
N. H. Pomfret	Master 1, Hamilton Institute of Technology, Technological and Trades Training Branch, May 9, 1964.

(1) Excludes payments by the Province to Boards for services rendered, such as for the education of pupils from certain unorganized areas, and for the use of schools for practice teaching.

(2) Commencing with 1963, the former special grants were incorporated into the general legislative grant. The legislative grants for 1955, 1956, and 1957 are special per pupil grants. The legislative grants for 1961, 1962, and 1963 are the Residential and Farm School Tax Assistance Grant. The latter grant was incorporated into the general legislative grant in 1964. The amount shown for 1964 is in respect of the 1963 Grant.

NOTE: During the calendar years, 1962, 1963, and 1964, payments in the amounts \$116,880,945, \$108,645,957 and \$24,209,090 respectively were made to School Boards for the construction and equipment of vocational accommodation under the terms of the Technical and Vocational Training Agreement between the Government of Canada and the Government of the Province of Ontario.

These figures are based on the monthly reports of the Family Allowance Division of the Department of National Health and Welfare. These reports give the number of families transferring accounts into or out of each province during the month. The figures for 1963-64 are preliminary. The data are compiled for a census year, June to May, and including 1958-59 but for the school year thereafter. In order to show the number of children rather than the number of families, the figures for 1958-59 and 1959-60 are multiplied by 1.5.

TABLE 15—FULL-TIME TEACHERS IN ELEMENTARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1963..... 40,875

ACQUISITIONS—September 30, 1963 to September 30, 1964:

From private elementary schools.....	56
Teachers' Colleges (all courses).....	4,018
Letters of Standing.....	410
Former secondary-school teachers.....	108
Letters of Permission on September 30, 1964.....	373 (1)
Certified teachers re-entering profession.....	2,033
Others.....	226
Total, Acquisitions.....	7,224

WITHDRAWALS—September 30, 1963 to September 30, 1964:

To further education in teachers' colleges, universities, and other educational institutions.....	501
To teach in secondary schools, private schools, teachers' colleges, or schools outside Ontario.....	977
Employment in a non-teaching occupation.....	465
Marriage.....	283
Retirement.....	533
Illness.....	108
Death.....	36
Resumption of household duties (married women).....	2,281
Others.....	165
Total, Withdrawals.....	5,349

ACQUISITIONS LESS WITHDRAWALS..... 1,875

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1964..... 42,750

EXPLANATORY NOTE:

1. This total shows only the number of Letters of Permission issued for the school year 1964-65 for the month of September.

Source: Elementary-School Principals' September Statistical Reports, 1964.

TABLE 16—FULL-TIME TEACHERS IN SECONDARY SCHOOLS

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1963..... 17,170

ACQUISITIONS—September 30, 1963 to September 30, 1964:

From private secondary schools.....	63
From Ontario College of Education (all courses).....	2,288(1)
Former elementary-school teachers qualified to teach in secondary schools.....	124
Qualified teachers re-entering profession who were employed previously on full-time basis.....	376
Letters of Standing.....	29
Letters of Permission on September 30, 1964.....	788(2)
Others.....	11
Total, Acquisitions.....	3,679

WITHDRAWALS—September 30, 1963 to September 30, 1964:

To enrol in a university or other educational institution.....	248
To teach in an elementary school, private school, teachers' college, or school outside Ontario.....	296
Employment in a non-teaching occupation.....	342
Marriage.....	199
Retired.....	81
Illness.....	29
Death.....	23
Resumption of household duties (married women).....	278
Others.....	148
Total, Withdrawals.....	1,644

ACQUISITIONS LESS WITHDRAWALS..... 2,035

NUMBER OF FULL-TIME TEACHERS ON SEPTEMBER 30, 1964..... 19,205

EXPLANATORY NOTES:

1. This total of 2,288 does not include persons who were employed by Boards on Letters of Permission during the school year 1963-1964, who served as teachers during that school year, and who returned to the schools as teachers after successful completion of the 1964 eight-week summer course at the Ontario College of Education.
2. This total shows only the Letters of Permission issued for the school year 1964-1965 in the month of September.

Notes: 1. Enrolment increases are calculated on September enrolments.

2. Building projects are counted in the year of completion.

3. No account is taken in this table of pupil-places lost as a result of the following factors: shift from urban to suburban areas, fire losses, replacement of temporary and obsolete accommodation, and abandonment of small buildings to permit centralized facilities.

Source: Technical Adviser, Department of Education.

TABLE 19—DESTINATION OF PUPILS WHO LEFT ONTARIO ELEMENTARY AND SECONDARY SCHOOLS DURING THE TWELVE MONTHS ENDING THE LAST SCHOOL DAY IN SEPTEMBER, 1964

Destination of Pupils	Number	Percentage Distribution
Retired from school life to enter:		
Proprietary and Managerial.....	135	0.1
Professional.....	511	0.5
Clerical.....	13,910	11.6
Agricultural.....	3,179	2.7
Fishing, Hunting, Trapping and Mining.....	597	0.5

TABLE 24—ELEMENTARY SCHOOL ENROLMENT
(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST DAY IN SEPTEMBER, 1963 **1,233,164**

ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Beginners: pupils whose names were entered on the roll of a public or separate school for the first time	163,475
(b) Pupils enrolled previously in another public or separate school in Ontario	264,371
(c) Pupils entering from private schools	1,888
(d) Pupils re-entering after a period of non-attendance	2,150
(e) Pupils from outside Ontario	24,391

TOTAL ADMISSIONS **456,275**

TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS **1,689,439**

TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER

(a) To public or separate schools	262,980
(b) To secondary schools—promoted	98,301
(c) To secondary schools—not promoted	11,482

TOTAL TRANSFERS **372,763**

RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Left Ontario	18,670
(b) To Private Schools	7,501
(c) Died	430
(d) Health and other reasons	2,420
(e) Ceased to attend school (other than in (a), (b), (c) or (d))	9,182

TOTAL RETIREMENTS **38,203**

TOTAL TRANSFERS AND RETIREMENTS **410,966**

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964 **1,278,473**

TABLE 31—PUBLIC SCHOOL ENROLMENT

(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963.....	901,830
ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Beginners: pupils whose names were entered on the roll of a public school for the first time.....	116,482
(b) Pupils enrolled previously in another public or separate school in Ontario.....	196,300
(c) Pupils entering from private schools.....	880
(d) Pupils re-entering school after a period of non-attendance....	1,485
(e) Pupils from outside Ontario.....	18,077
TOTAL ADMISSIONS.....	333,224
TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS.....	1,235,054
TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) To public or separate schools.....	201,711
(b) To secondary schools—promoted.....	76,869
(c) To secondary schools—not promoted.....	8,281
TOTAL TRANSFERS.....	286,861
RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:	
(a) Left Ontario.....	14,134
(b) To private schools.....	1,660
(c) Died.....	311
(d) Health and other reasons.....	1,566
(e) Ceased to attend school (other than in (a), (b), (c), or (d)....	5,454
TOTAL RETIREMENTS.....	23,125
TOTAL TRANSFERS AND RETIREMENTS.....	309,986
ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964.....	925,068

TABLE 44—ROMAN CATHOLIC SEPARATE SCHOOL ENROLMENT

(Continuous Record from September, 1963 to September, 1964)

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1963..... 331,334

ADMISSIONS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Beginners: pupils whose names were entered on the roll of a separate school for the first time.....	46,993
(b) Pupils enrolled previously in another public or separate school in Ontario.....	68,071
(c) Pupils entering from private schools.....	1,008
(d) Pupils re-entering school after a period of non-attendance at any school.....	665
(e) Pupils from outside Ontario.....	6,314

TOTAL ADMISSIONS..... 123,051

TOTAL, SEPTEMBER, 1963 ENROLMENT AND ADMISSIONS..... 454,385

TRANSFERS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) To public or separate schools.....	61,269
(b) To secondary schools—promoted.....	21,432
(c) To secondary schools—not promoted.....	3,201

TOTAL TRANSFERS..... 85,902

RETIREMENTS SINCE LAST SCHOOL DAY IN SEPTEMBER:

(a) Left Ontario.....	4,536
(b) To private schools.....	5,841
(c) Died.....	119
(d) Health and other reasons.....	854
(e) Ceased to attend school (other than in (a), (b), (c), or (d)).....	3,728

TOTAL RETIREMENTS..... 15,078

TOTAL TRANSFERS AND RETIREMENTS..... 100,980

ENROLMENT ON THE LAST SCHOOL DAY IN SEPTEMBER, 1964..... 353,405

Southwestern..... Counties of Essex, Kent and Lambton (H.Q. Chatham P.L.)	447,763	50	1,063,898	2.38

Regional Library Co-operatives are established under Part III of the Public Libraries Act and are designed to provide and encourage cooperative services among member libraries.

(1) Member libraries listed are totals for the region and do not necessarily participate in all services. (2) Headquarters circulation and (3) expenditure are unduplicated; they do not include totals reported elsewhere. (4) Total of all public library expenditure in the region, and (5) expenditure per capita for the region.
